INNOVATOR FOUNDER VISA

The Innovator Founder visa is for start-up entrepreneurs and experienced businesspersons seeking to establish a business in the UK.

Applicants do not need to have any specific level of funds to invest in their proposed business, but must have an innovative, viable and scalable business idea, supported by a business plan, which has been approved by an endorsing body.

Applicants for an Innovator Founder visa must have generated, or have significantly contributed to, their business idea. Innovator Founders must also intend to have a key role in the day-to-day management and development of their business.

Innovator Founder visas are valid for 3 years and can lead directly to indefinite leave to remain in the UK at the end of this period. Innovator Founders can bring a partner and children under 18 to the UK.

REQUIREMENTS FOR AN INNOVATOR FOUNDER VISA

Initial applications for an Innovator Founder visa

In order to qualify for an Innovator Founder visa, you will need to satisfy UK Visas and Immigration that:

- You are at least 18 years old;
- You have a letter of endorsement issued by an approved UK endorsing body;
- Your endorsement letter was issued not more than 3 months before the date of your visa application;
- You are competent in the English language to at least CEFR Level B2 (equivalent to IELTS 5.5 in reading, writing, listening and speaking);
- If you are outside the UK or have been in the UK for less than 12 months, you have at least £1270 to support yourself, plus £285 for a dependent partner, £315 for a first child and £200 for each additional child;
- You have provided a TB test certificate, if required.

Is there an investment funds requirement?

Innovator Founder visa applicants do not need to show any specific amount of funds to invest in their proposed business

However, the requirement to have a 'viable' and 'scalable' business idea means that, in practice, you will need to demonstrate that you have access to a level of investment funds that is sufficient to set up and grow your business.

The investment funds requirement for an Innovator Founder visa is, therefore, a flexible provision that is capable of being satisfied by anyone with a genuine proposal for an innovative business and an appropriate level of funds to deliver it, based on the specific financial needs of their business.

ENDORSEMENT CRITERIA FOR AN INNOVATOR FOUNDER VISA

Initial applications for an Innovator Founder visa based on a new business

In order for your business proposal to be endorsed, an approved endorsing body will need to be satisfied that you meet various requirements:

- You are a fit and proper person to receive endorsement under the Innovator Founder route;
- The endorsing body has no concerns over the source of any funds invested into your business;
- The endorsing body has no reason to believe that you or your business may be the beneficiary of illicit or unexplained wealth;
- You have a business plan and have either generated or made a significant contribution to the ideas in that business plan;
- You will have a day-to-day role in carrying out the business plan;
- You will have at least two Contact point meetings with your endorsing body at regular intervals;
- You are either the sole founder or an instrumental member of the founding team; and
- You have an innovative, viable and scalable business venture.

Innovative, Viable and Scalable Business Venture Requirement

In order to satisfy the innovative, viable and scalable business requirement for an Innovator Founder visa, your business idea will need to meet all of the following criteria:

- **Innovation:** You must have a genuine, original business plan that meets new or existing market needs and/or creates a competitive advantage;
- **Viability:** Your business plan must be realistic and achievable based on your available resources and you must have, or be actively developing, the necessary skills, knowledge, experience and market awareness to successfully run your business;

- **Scalability:** There must be evidence of structured planning and of potential for job creation and growth into national and international markets.

The endorsing body will also need to be satisfied that you have either generated or made a significant contribution to the ideas in your business plan and that you will have a day-to-day role in carrying out your business plan.

Applications for an Innovator Founder visa based on the same business

If you are pursuing a business that has previously been assessed by a Home Office approved endorsing body while you had permission on the Innovator, Innovator Founder, Start-up or Tier 1 (Graduate Entrepreneur) route, either for a previous endorsement application or at a contact point, then you may also apply for a further endorsement as an Innovator Founder.

This might be appropriate if you are looking to switch into the Innovator Founder route from one of the aforementioned routes or apply for an extension of stay as an Innovator Founder.

In order to qualify for an endorsement on the basis of running the same business as in a previous endorsement application, and receive an Innovator Founder endorsement letter, you will need to satisfy a Home Office approved endorsing body that:

- Your business is registered with Companies House and you are listed as a director or member of the business;
- Your business is active, trading and sustainable;
- You have made significant progress against your business plan;
- You are active in the day-to-day management and development of your business.

If you have, or last had, permission as an Innovator or Innovator Founder, you will also need to demonstrate that you attended at least 2 Contact point meetings with your endorsing body (or similar checkpoints with a legacy endorsing body) at regular intervals during your period of permission and confirm that you will have at least two Contact point meetings with the endorsing body at regular intervals during your period of permission.

INDEFINITE LEAVE TO REMAIN AS AN INNOVATOR FOUNDER

In order to qualify for indefinite leave to remain as an Innovator Founder you will need to satisfy UK Visas & Immigration that:

- You have been endorsed by an approved UK endorsing body that is satisfied that you have shown significant achievements judged against the business plan assessed in your previous endorsement, you are registered with Companies House as a Director or Member of your business, your business is active, trading and appears sustainable for at least the following 12 months and you have had an active key role in the day-to-day management and development of the business.

 1. At least £50,000 has been invested into the business and actively spent furthering your business;
 2. The business has created the equivalent of at least 5 full-time jobs for settled workers, which have an average salary of at least £25,000 a year;

Where can I find out more about Innovator Founder visa endorsing bodies?

The Home Office has published a list of endorsing bodies for Innovator Founder visa applications. Can Innovator Founder visa applicants join an existing business?

The Innovator Founder visa category is suitable for start-up entrepreneurs and experienced businesspersons who are looking to set up a new business in the UK which is innovative, viable and scalable. However, where it does, the business should not yet have fully started trading.

Can I apply for an Innovator Founder visa as part of a team?

You do not need to be the sole founder of your business and you may be a member of a founding team. However, if applying as part of a founding team you will need to be an instrumental member of the team and each applicant must receive their own individual endorsement from an approved endorsing body.

Your business idea may relate to any sector, provided the business idea is sufficiently innovative, viable and scalable. Applicants can also develop other businesses as well as their main business idea.

What is the role of the endorsing body once I have my Innovator Founder visa?

You will need to have at least two contact point meetings with your endorsing body at regular intervals during your period of permission as an Innovator Founder. A contact point meeting is a checkpoint assessment between you and your endorsing body to assess progress against your business plan.

The endorsing body will need to be satisfied that you are continuing to work on your business venture and have demonstrated reasonable progress in relation to either your original or a new business idea that is innovative, scalable and viable.

Your Innovator Founder Visa may be cancelled if you fail to undergo a contact point meeting with your endorsing body.
